[Docket No. CP17-40-006]

Spire STL Pipeline LLC; Notice of Availability of the Final Environmental Impact Statement for the Spire STL Pipeline Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a final environmental impact statement (EIS) for the continued operation of the Spire STL Pipeline Project (Spire STL), proposed by Spire STL Pipeline LLC (Spire) in the above-referenced docket. Spire requests the Commission to reissue a Certificate of Public Convenience and Necessity authorizing operation of the Spire STL.

The final EIS assesses the continued operation of the Spire STL in accordance with the requirements of the National Environmental Policy Act (NEPA). FERC staff concludes that impacts from the continued operation of the Spire STL would be less than significant, with the exception of climate change impacts resulting from GHG emissions that are not characterized as significant or insignificant.

The final EIS addresses the potential environmental effects of the continued operation of the following project facilities:

- 59.2 miles of 24-inch-diameter pipeline in Scott, Greene, and Jersey Counties, Illinois and St. Charles and St. Louis Counties, Missouri;
- 6.0 miles of 24-inch-diameter pipeline (the North County Extension) in St. Louis County, Missouri; and
- three new meter stations—the Rockies Express Pipeline LLC (REX) Receipt Station in Scott County, Illinois and the Laclede/Lange Delivery Station and Chain of Rocks station in St. Louis County, Missouri.

The Commission mailed a copy of the *Notice of Availability* of the final EIS to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. The final EIS is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the final EIS may be accessed by using the eLibrary link on the FERC's website. Cross-Media Electronic Reporting: Authorized Program Revision Approval, Maine Department of Environmental Protection

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the Environmental Protection Agency's (EPA) approval of the Maine Department of Environmental Protection (ME DEP) request to revise/modify certain of its EPA-authorized programs to allow electronic reporting.

DATES: EPA approves the authorized program revisions/modifications as of October 14, 2022.

FOR FURTHER INFORMATION CONTACT:

Shirley M. Miller, U.S. Environmental Protection Agency, Office of Information Management, Mail Stop 2824T, 1200 Pennsylvania Avenue NW, Washington, DC 20460, (202) 566–2908, miller.shirley@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the option of the state, tribe or local

government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On June 29, 2022, the Maine Department of Environmental Protection (ME DEP) submitted an application titled shared services integrated into CDX system for revisions/modifications to its EPA-approved programs under title 40 CFR to allow new electronic reporting. EPA reviewed ME DEP's request to revise/modify its EPA-authorized programs and, based on this review, EPA determined that the application met the standards for approval of authorized program revisions/modifications set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve ME DEP's request to revise/modify its following EPA-authorized programs to allow electronic reporting under 40 CFR is being published in the **Federal Register**:

- Part 52: Approval and Promulgation of Implementation Plans (SIP/Clean Air Act Title II) Reporting under 40 CFR 50 through 52.

ME DEP was notified of EPA's determination to approve its application with respect to the authorized programs listed above.

Dated: October 7, 2022.
